

PREGNANCY CENTER DISCUSSION GUIDE

For Staff and Volunteers

1) How connected do we feel to our partner churches?

Would we like more support/engagement from them?

What specifically would we like to see?

2) Do we feel our services provide the long-term support and resources a woman and child will need to thrive during and after unplanned pregnancy?

What else could we add to see better outcomes for women and children?

[thriving = physically, emotionally and spiritually]

3) What is our organization's reputation in our community?

Are we able to connect with/and stay connected with our clients in the way that we'd like to?

What else would we like to see?

4) What are our current tensions around our work in the unplanned pregnancy/abortion space?

Related to clients? To our community? To our churches?
